

Do you think STEM is not for you?

Do you think it's all about just reading books?

Are you willing to let us show you that it is more fun than that?

Join us as we explore STEM in the right way!

We are looking for students interested in exploring STEM careers. As a participant, you will be exposed to many different STEM enrichment activities and you will meet several professionals in the STEM fields such as medical professionals, engineers, geologists, etc. This program aims to give you an insight into a future career in STEM and to create awareness of the scholarship opportunities available for students by EducationUSA.

Application Procedure:

- 1. Fill in the application form, this will be available in the staff room.**
- 2. Drop completed application forms in ballot boxes which are placed around the school.**

Application Deadline: 05/07/2019
